SOFTWARE ENGINEER

Full-Stack Software Engineer driven by fervor for crafting innovative, high-impact applications. With four(4) years of tenure in the healthcare sector, displaying an imperative focus on delivering high quality solutions to clients. My exceptional problem-solving skills, honed through my experience in physical therapy, enables me to tackle complex challenges and work relentlessly to find effective solutions. I am constantly seeking new opportunities to learn and stay ahead of the curve with the latest technologies and industry trends to continue to expand my skill set in frontend and backend technologies.

TECHNICAL SKILLS

JavaScript, Ruby, HTML/CSS, Ruby on Rails and React js, Node js, Postman, RESTful API, SQLite database, Github, OOP, Microsoft office, Excel, Web development, Strong soft skills, Relationship building, Data entry, Bilingual.

TECHNICAL PROJECTS

PT Connect - [Github](#)

PT Connect is a web application that connects Physical therapy providers with users. This application allows users to book appointments with Physical therapists and gives users access to a library of exercise treatments.

- Utilized JSON Web Tokens and localStorage to store encrypted user information client-side.
- Implemented material UI functional calendar to book visits with selected Physical Therapist.
- Incorporated Active Record Associations to create complex data structure between Physical Therapist and users.
- Made use of Rails database to render exercise treatment for users to continue progress outside of the clinic.
